

THE UNITED STATES OF AMERICA'S UGLY LEGAL SYSTEM: WORST IN THE WORLD BY DAVID GARCIA

America, is supposed to be the "Land of the free," so says the words to the National Anthem's song in it's lyrics so proudly sung by many. But yet, it also has the worst, most dangerous, dishonest and crooked legal system on the planet today.

The corruption of the American Legal System, is also one of the media's best kept secrets, which it is afraid to fully expose for fear of reprisal and social revolution if the truth about the real justice system getting to the public's attention was taken seriously.

The world now knows that the United States has the largest prison system on earth. Over 2.2 million of its people are imprisoned to date. Which is roughly one out of every one hundred and fifty people in the nation. Heck, you just may have a friend or family member incarcerated right this minute.

But ain't it funny, how the United States politicians point thier fingers at other countries around the world and find flaws in thier legal systems, especially those eastern countries like China, Russia and Belgium, just to name a few.

There is just no other country in the world today, that is quicker to imprison its own people as is the United States, which has over 100,000 innocent people in its prisons and jails right now. So, "Good luck with that!" Innocents Rights Project people. Who only take cases dealing with DNA.

A significant reason for such injustice is due to the fact that

there are a lot of lawyers that are controlled by the same judges that allow them to practice law in thier court rooms, lawyers who really don't work for thier clients despite the large sums of money that they receive from them. And due to this fact, there are now more and more claims of ineffective assistance of counsel now pending in the courts, and is always a factor in an appellant's brief most of the time. The reason being that lawyers are directly under the thumb of judges, in the sense that those who go against the grain, often find themselves either disbarred, or held in contempt and jailed or fined, or both. Which all in all becomes a savage culture of legal fraud in the end, where lawyers work with judges to rob and terrify people into submitting to thier own set of rules and not those of the United States Constitution. I know, I am a victim of this fraud, first hand!

And if you by chance have the misfortune of ever being arrested in this counrty, depending on such arrest, the Police and District Attorney will pile up excessive criminal charges on you to make you look bad and have you submit to a guilty plea which in turn makes them look successful, even if you are totally innocent. Because for the Police and Prosecutors, its all but a sporting game to them, and a chance at recommendation and promotion, all so they could gain a higher job status.

Most people in America see the "Hollywood version" of the legal system, which is truely fake, and for those that do not know better, they are easily mislead into thinking that there are really lawyers like that and that that is really how the judicial system in this country works. When in reality, you

cannot find an American lawyer brave enough to fight judicial corruption, even when you are totally innocent!

Most Americans don't even know the meaning behind the Miranda warnings. They think that by talking to the cops without a lawyer present, they are helping themselves, when in reality they are causing themselves irreparable damage that could harm them for the rest of their lives.

America is the land of fear when it comes to dealing with the legal system. And it only gets worse with each passing day as Judges and lawyers get away with crimes in broad daylight, without the fear of anybody doing anything about it in stopping them or holding them accountable for their actions.

As Martin Luther King Jr. said in one of his interviews-
"An unjust law, is not law...."
