I have Just ben Sent to Intensive Management Unit. I am on I.m.E. Super Max Shoe there are 48 men on this unit. I got here with 11 Other men all Coming here. got here 8-29-17.

Not 14 days of being here my up Stairs neighbor. Just more then a teen. in his 20's Just a Kid I have a Child his age. in her 20's Something went wrong with his Plumbing and his toilet flooded waste water and feces all over his floor. the Staff got a Plumber to Snake out his toilet bringing more waste and feces in to were he has to live 23 hours a day.

The Kid ask for Has-mat to come Cleen his cell, I Should Say Cage. they gave him a rag and Cleening Spray.

This Kid got mad and Kicked his door and Sliped on the waste water and feces. He Started yelling for help. Staff laught at him. Said they would not Call Medical. Said it was not a Medical emergencie. He was yelling my Name help me

All I could think of was, what if that was my child my baby little girl yelling for help being laught at by the people that are there to help.

Me and some others starting yelling man down. Medical staff talk to floor ~~staff~~ staff and look up at the cell and started laughing. He went up and told this kid that could not stand up, it was not a medical emergency. Me and others started kicking are doors. Medical staff did not even look at him. After 40 minutes of kicking yelling madness ~~man~~ man down they came got him. Put him in a wheel-chair took him away we don't know what happened to him.

Because of that and just being in I.M.U we are on food deprivation. Inmates in I.M.U get less food than main-line inmates. S.R.C.I uses food for punishment. I drink a lot of water from hunger but some eat toilet paper balls to fill up their stomachs. They say I.M.U is a program this is the hole with more things we can have, punishment we get over and over for doing one thing wrong. With no one to help. ~~we~~ ("thanks to Real Cost of Prisons Project") We can now write about it, have a voice.
