ACCOUNTABILITY,

(Wrongful state sponsored execution of Nathaniel Woods)
once again - America has failed one of its most vulnerable and,
NEEDED citizens among our supposedly civilized and,
Compassionate Nation.

On March 5th 2020 Alabama's attorney general Steve,
MARSHAL and Alabama's governor Kate Irv failed to stop
THE state sponsored execution of one of its vulnerable
Incarcerated citizens in spite of his profound and meritor-
ious claim of actual innocence.

During the twelfth hour of Nathaniel's execution,
DATE one of the United States Supreme Court Justices,
Granted Nathaniel Woods an empty meaningless $2\frac{1}{2}$,
Hour stay, in a fake attempt to allow a last ditch
Review of the facts related to his death sentence.

In Alabama all that is needed to put a person to death
is a simple majority voting for death.

To restate briefly the pertinent facts that found this
Human being crying out for compassion and mercy to save
and spare his life is as follows, Nathaniel Woods with
his co-defendant Kerry Spencer were arrested and
booked for capital murder after being involved in a shot-
out with Alabama police during execution of a search-
warrant for a drug charge in a dwelling in Alabama.

Accountability,

(Wrongful state sponsored execution of Nathaniel Woods.)
~~IN~~ or around 2004 this abrupt Warrantless Search
FOR A drug suspect ending with a shoot out and death of,
THREE police officers.

~~ITS~~ Very likely that Nathaniel Woods was unaware of,
THE fatal intended actions of his co-defendant Kerry-
-spencer who's self admitted actions caused the death,
of three police officers on that untimely day and date
That took those officer's lives.

~~IN~~ order to recapitulate some of the facts and clear up,
Some major pertinent issues of concern, most importantly

~~IT~~ was never disputed that Nathaniel Woods wasn't the,
Shooter of the police officers on that tragic day,
Correspondingly ~~IT~~ was suggested and charged in theory,
AND in legal terms that Nathaniel Woods somehow was
A co-conspirator that conspired to take those innocent
officers lives.

THE hard facts that existed, that Nathaniel physical actions
DIDN'T act as the legal instrument that took these,
Brave officers lives should have equally acted as an,
~~IMPLIED~~ acquittal to save his own.

ACCOUNTABILITY,

(Wrongful state sponsored execution of Nathaniel Woods.)
In the face of any and all lack of fundamental fairness that,
Wasn't attributed to Nathaniel Woods in life and during his
Criminal trial now sits upon this tragic case at bar.
THE antithesis of the opposition to the lack of no,
Fundamental Judicial fairness being given this human,
- BEING flies in the face of Justice, where here in the
INSTANT case the co-defendant accepts full guilt,
AND legal responsibility for the tragic taking of these
BRAVE officers lives who's tragic and senseless deaths,
Now unfortunately over shadows the death of another human,
Being (Nathaniel Woods),

BY any Extention of law and order, right or wrong,
or for no reason, THE state of Alabama shouldn't
Be TAKEN anyones life that isn't in need of self-
- Defense in protection of themselves or society.
I declare as a personal opinion that such extreme
Actions are against God's law and against humanity.
